

## NextBASIC Unimplemented Features (Updated 17 Jan 2018)

This document lists the as-yet-unimplemented features of NextOS/NextBASIC, as at the current version of NextOS (**v1.94A**). These are planned to be present by the cased machines release (by v2.00).

This should be read in conjunction with the other documents:

- NextBASIC file-related commands and features
- NextBASIC new commands and features
- NextOS Editor features
- NextOS API

### Unimplemented features

Drive images (C:/NEXTOS/CPM-\*.P3D and C:/NEXTOS/DRV-\*.P3D) are not yet automatically mapped, and cannot be manually mounted.

+3 floppy disk images (\*.DSK) cannot yet be mounted.

External +3 floppy disk drives are not supported.

Spanish language version of the ROMs is not yet available.

CP/M loader option not yet implemented.

### Unimplemented commands

**POINT** *x,y,var*

**DRAW** *x,y* (Not yet implemented for layer 1 or layer 2 modes)

**DRAW** *x,y,z* (Not yet implemented for layer 1 or layer 2 modes)

**CIRCLE** *x,y,r* (Not yet implemented for layer 1 or layer 2 modes)

**BANK** *n* **LINE** *x,y*

**BANK** *n* **LIST**

**BANK** *n* **LIST** *l*

**BANK** *n* **MERGE**

**BANK** *n* **GOTO** *l*

**BANK** *n* **GOSUB** *l*

**BANK** *n* **RESTORE** *l*

**NEW DATA** *part\$,size*

**NEW EXP** *part\$,size*

**MOVE** *drive\$=path\$*

**LOAD/SAVE/VERIFY/MERGE** *f\$* **LAYER**

**LOAD/SAVE/VERIFY/MERGE** *f\$* **BANK** *n*

**LOAD/SAVE/VERIFY/MERGE** *f\$* **BANK** *n,offset,len*

NOTE: Instead of these commands, the following commands can currently be used, which have the same functionality but can only load files directly from the SD card, not from tape. They will (probably) be removed when the above commands have been implemented.

**BANK** *n* **LOAD/SAVE** *f\$*

**BANK** *n* **LOAD/SAVE** *f\$,offset,len*
